

WashTex® I.C.

Impression Cylinder Cleaning Fabric

Developed specifically for impression cylinder application.

The newest back cylinders or impression cylinders, with their highly abrasive surfaces, require a different approach to cleaning and **WashTex® I.C.** is the answer.

WashTex® I.C. is a new product manufactured via a unique engineered fabric process that provides a high degree of cleaning on impression cylinders without producing the lint created when using a standard blanket cleaning fabrics in this special application.

Press Model	Item Code	Rolls/Case	Roll Size (Width x Length)
Heidelberg SM 74	581001	25	30.125" x 9.0 Yds.
